

Access Control and Time & Attendance Solutions

WWW.SABREBIOMETRICS.COM

Have you ever calculated the true cost of not having a reliable time and attendance solution?

How much money does your business lose monthly???

What such an investment as this can save you!!

Example Data:

25 staff @ R 40 per hour per employee. If all staff only steal 1 minute for every clockings per day based on 8 clocking's, which are - **Arrival time, Start Morning Tea, End Morning Tea, Start Lunch, End Lunch, Start Afternoon Tea, End Afternoon Tea, End of Day** (excluding smoke and toilet breaks).

Therefore:-

200 minutes per day (3.33 hours), X 22 working days per month @ R 40 per hour = R 2 933.33 **attendance loss** Include a production cost of R 250 per hour per person X 3.33 hours, X 22 days per month = R 18 315.00 **production loss**.

Total loss based on 1 stolen minute per clocking per staff member (8 minutes per day lost) = R 21 248.33 PER MONTH
